FloodLock SMART FLOOD BARRIER

Lightweight when stored

Activates upon contact
with water

Automatically expands

Creates an instant barrier

WHAT HAPPENS WHEN YOU ARE NOT PREPARED?

- Property Damage
- High Repair Costs
- Operational Disruption
- Risk of Electrical System Damage

BE PREPARED BEFORE THE FLOOD ARRIVES

Just 3 easy Steps

01 Soak in water

Soak the FloodLock bag in water until it is fully saturated and expanded.

02 Flatten the gel

Make sure the gel is spread evenly inside the FloodLock bag to form a solid barrier.

03 Place in the required area

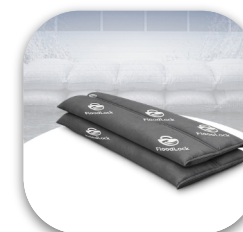

Stack the absorbents as illustrated for optimal performance.

CHOOSE THE RIGHT SIZE FOR YOUR PROTECTION AREA
