

OWEN HANDOJO

FRONT-END DEVELOPER | REACT, TYPESCRIPT & RESPONSIVE WEB DESIGN

owen.handojo@gmail.com | [LinkedIn](#) | [Github](#) | +6282230008200

SUMMARY

Informatics undergraduate at Petra Christian University. Hands-on project experience in designing intuitive **UI/UX workflows**, building **responsive web layouts**, and crafting engaging **visual designs** for content. Looking to apply this foundation beyond the classroom, contributing to real-world work.

SKILLS

- **Front-End Development:** JavaScript, TypeScript, React, HTML, CSS, Tailwind CSS
- **Design & UI/UX:** Figma, Canva, Digital Content Design, Visual Asset Creation
- **Back-End & Database:** PHP, Laravel, SQL, Supabase
- **Development Tools:** Git, GitHub, VS Code, Vercel

PROFESSIONAL EXPERIENCE

Miracle Strategy | Digital Content & Front-End Support Dec 2024 - Jun 2026

- Supported **front-end improvements** to the company website through **CSS adjustments**, **layout refinements**, and **manual QA testing**.
- Identified and logged **visual inconsistencies**, **usability issues**, and **bugs** across web pages.
- Managed an Instagram account @miraclestrategy.id with over 120k followers during my tenure.

Blocknews.id | Digital Content Specialist Nov 2024 – Oct 2025

- Analyzed daily **post-performance data** to identify **content trends** and **engagement patterns**.
- Translated performance insights into improved **visual templates**, **layouts**, and **strategies**.
- Contributed to sustained account growth to approximately 130K followers.

PROJECTS

Petra Tickets & Experiences | Figma, UI/UX Design, Prototyping, Usability Testing

- Collaborated on user research and the **high-fidelity Figma design** of a **mobile booking app** for Petra-area tours and experiences, featuring card-based discovery, advanced filters, a trust-focused checkout flow, e-ticket storage, and an editable itinerary.

Vroomwash | Laravel, Blade, Tailwind CSS, MySQL

- Developed a **role-based car wash booking platform** that allows customers to select services and schedules, manage bookings, and view booking history, with **dedicated dashboards** for administrators, employees, and customers.

Toddit | Laravel, Blade, PHP, MySQL, AJAX, Vite

- Designed and built a **Reddit-style social platform** featuring dynamic discussion threads, nested comments, and moderation tools using **Laravel's MVC architecture** and **Eloquent ORM**.
