- Work Fast

LANGUAGES

- Bahasa Indonesia (Fluent)
- English (Enough)

PROFILE

Diploma 3 graduate in Informatics Management with hard skills competencies (web and mobile programming), data visualization(Power BI), database management, AI tools integration, and Microsoft Office. I am accustomed to working across teams or within a team. I'm able to coordinate well and have good problem-solving skills within the company's IT environment. With this background, I am confident that I can contribute actively to the IT Programming team at PT. Multi Spunindo Jaya Tbk.
